Main ingredients:
Curcuma, Smilax, Aralia, Cyperus.

LD₅₀: 10.15g/kg

MYOMIN SUCCESS STORIES

- Y. Dikansky, DDS, NMD from NY, reports on a 38-year-old female who had an ovarian cyst for 8 years. The cyst was 3.7x6x2. After taking Myomin for 3 months, the cyst disappeared.

- V. Vidov, MD from NY, reports on a 40-year-old female who had a fibroid cyst in the breast the size of an egg. After only 3 months of taking Myomin, the cyst disappeared.

- A. Schueler, DC from VA, reports on a 40-year-old female who had a 10cm fibroid cyst. After taking Myomin for 6 months, her fibroid cyst has greatly reduced in size.

MYOMIN FOR FEMALE ORGANS AND PROSTATE

Mechanism:
1. Myomin competes with estradiol at target cell’s estrogen receptors.
2. An aromatase inhibitor that effectively reduces excess estradiol.
3. ↑ interferon, interleukin-2 and tumor necrosis factor, reducing cysts and fibroids.

Myomin Mechanism

Target cells include blood vessels and cells of these organs: male and female reproductive organs, colon, liver, gallbladder, thyroid, kidneys, etc.

*For those with uterine fibroids over 5cm, add Revivin for great results.

- M. McCain, ND from AR, quotes: "Myomin has proven exceptional in reducing hard to dissolve fibroid tumors and liver and kidney cysts. We have many remarkable testimonials."
- J. Stickel, DC from IA, reports on a patient with uterine fibroids and colon polyps. After taking Myomin for only 3 months, her uterine fibroids and polyps had completely disappeared.
- S. Young, ND from CO, reports on a 38-year-old female patient with a colloid cyst on her thyroid. MD was giving RX to shut down her thyroid “and see what would happen.” She tried Myomin instead and the cyst melted away in 3 weeks.
- K. Hajduk, DC from CA, reports on a 50-year-old male whose PSA level was 7.9. He recommended that the patient take Myomin and Revivin and use the MIT once a day. After 4 months, the patient’s PSA dropped to 2.
- T.C., a 58-year-old male from CA, has prostatitis and has take Saw Palmetto for years. In early 2003, Saw Palmetto no longer worked for him and so he switched to Myomin with excellent results.
- W. Stimack, NMD from ID, reports on a 29-year-old female patient with 12 fibroids that made her look like she was 8 months pregnant. She used Myomin for 5 months and now it is all clear.
